

Overview

Rigging Accessories for Projectors

Meet the completely new generation (ng) of the popular pegasus rigging accessories: pegasus rig tools. Same quality, but better than ever in terms of compatibility and flexibility. The new rental frames comply with DGUV regulations 17 and 18 (formerly BGV C1) and have a test seal issued for the respective serial number including an individual certificate. With pegasus ng you can also realise projections in portrait and landscape mode as well as face-down.
